

Dear Friend

Hello, how are you my friend?

I am twelve years old this year. My ambition is to be a nurse. I don't want anyone to destroy this dream. I don't want to disappoint you and my parents.

At home I stay my grandmother, Uncle, mother and my four sisters.

This year it seems to be better than last we almost had enough rains. We are tired to be beneficiaries of WFP (World Food Programm).

I like Maths I top them in class. My class teacher is Mrs D
My friend at school is Tebukhosi D
